Filing A Homeowner's Claim: Natural Disaster Or Not (A Real Life Legal Guide)

Synopsis

As the U.S. has been hard hit with an increasing number of natural disasters, American homeowners have heard a wake-up call. Do you know if your homeowner's insurance policy will cover you if disaster strikes? What can you do if your insurance company denies your claim? This Real Life Legal book is written by a practicing attorney with an insider's take on how homeowner's policies and claims work. She makes it easy to understand insurance policy coverages, exclusions, endorsements and riders. You can learn how insurance claims work and some easy steps to follow to make sure your rights and interests are protected. If your claim is denied or not paid in full, this book has invaluable practical information on what to do next. You'll learn whether it makes sense to hire an attorney or public adjuster to go to bat for you. Since not all homeowner's policies are the same, make sure you've got the coverage you need in case the next hurricane, tornado, earthquake, flood, wildfire or superstorm comes along! We cover all that here. And make it easy to understand. Real Life Legal wants you to be prepared. Dawn Snyder is an attorney with a background in civil litigation, including appeals and alternative dispute resolution in the areas of insurance, construction, design and personal injury. She is licensed to practice law in Ohio and Arizona.

Customer Reviews

It seems like if there's an insurance policy, home damage should be covered. But it isn't always. I was able to read this book pretty quickly but it explained a lot of the legalese in a home insurance policy that tells you whether something will be covered, and a lot of other things that it is better to know before making a claim (or before needing to make a claim.) It also goes over the situations where the insurance company doesn't cooperate or when you might need a lawyer.

No one likes to think about natural disasters, but it's definitely something homeowner's must consider when purchasing insurance. This book provides a lot of great information to help you determine what your policy covers, as well as the process and steps involved with filing a claim. A good read for any homeowner.
