Energetics In Acupuncture: Five Element Acupuncture Made Easy, 1e

Synopsis

New title by the author of *Cosmetic Acupuncture!* Energetics is an area of growing interest and importance in acupuncture. Acupuncture treatment aims to correct the imbalance of energy, or qi; energetics is a method of diagnosing which aspects of qi are out of balance. Energetics in Acupuncture provides a straightforward diagnostic method of identifying which aspects of the qi are out of balance and therefore what acupuncture treatment is required. • One symptom can be caused by many different imbalances of organs and it is essential for the therapist to correctly diagnose the problem before commencing treatment. • Once the correct diagnosis is made, the relevant points can be treated with appropriate techniques. • The book takes a logical approach to diagnosis and provides relevant lines of questioning and reasoning. • FEATURES • Treatments are described for over 80 different diseases. • Innovative visual âˆ“towersâˆ“™ show clearly what an energy imbalance looks like • Case studies illustrate imbalanced states.

Customer Reviews

A very well written book, which explains very difficult concepts in very clear terms. It is also very well illustrated. I highly recommend it.

I gave it 5 stars because the way she teaches the 5 elements make the reader understand CTM and apply it to clinical practice, the book is not a how to do or step by step practical acupuncture treatment; the book takes you to the total knowledge of the Chinese medicine and perhaps the all

Universe acting manner.

This is the third book i have read on TCM and the first time i am not confused at the end of it. Even from the first chapters you begin to realise how to separate the illnesses according to TCM theory and little by little you get into deeper principles of acupuncture in a very understandable way. Of course one book is not enough if you are just starting to get into TCM. Seminars are needed. I think it is usefull for trained therapists as well as for amateurs like me. Great book indeed.

This Book is very useful For Acupuncture practitioners. Contains many fine details about the acupuncture treatment.

\$4000 for a book! The pages better be solid gold at that price. who cares how good the info is...who can afford it
