Customer Reviews

I work during the day and have almost no time to dedicate to another job. I could always welcome some more money and to enlarge my income and that's what I was looking for. To find another source that needs practically no time at all and you don't have to be involved a lot. There are a lot of ideas how to make money from eBay and that's great.

I have a few booths at flea markets. I make good income from them, but I wanted to make more. I was told Ebay is a good way to make more income. I purchased this book and it showed me unbelievable ways to make more money. I loved this book.

Good tips for items that will make a profit, but most of the clothing and related items are for American sellers only. Electronics and other things relate to non-Americans.

I was always interested in making a business in ebay but never had the courage enough to actually start. With this book I am now encouraged to start it and succeed at it.

Good but brief and short. Not much elaboration here. Information is sound. I don't agree its the only book you need by a long shot. 4 stars

Great information to know while shopping.Now I know what to look for.Thanks for the great insight

and help.

The book was ok not the best just gives you items that you can sell but does not really go in-depth about the items

It is a good book. It is short, sweet, and to the point. Gives you the most profitable items to sell.
