Life And Health Insurance, 13th Edition

Synopsis

This current, accurate and detailed industry guide for financial service professionals examines life and health insurance simultaneously from the viewpoints of the buyer, the advisor, and the insurerâproviding a comprehensive and unbiased treatise on individual and group life; a forthright appraisal of life and health insurance industry products with careful consideration of the environment; and a complete examination of life insurance company operations and regulation. Bases financial treatment of life insured operations on modern financial theory, and devotes entire chapters to the economics of life and health insurance; individual life and health insurance policies; life and health insurance evaluation; the uses of life and health insurance in personal and business planning; government and employee benefit plans; and the management, operation, and regulation of life insurance companies. Offers a strong global orientation, supporting fundamental concepts with an extensive integration of economic and financial theory and international comparisons, and examines how today's health insurance products fit into a broad framework from a contractual, cost, and performance viewpoints. New chapters on the tax treatment of life and health insurance address such areas as estate planning, retirement planning, and the business uses of life and health insurance. For financial planners, salesmen, actuaries, investment managers, attorneys, CPAs, and other financial service professionals.

Customer Reviews

Though dated at this point, the principles - and especially the economic rationale - still hold.

Remains my go-to life insurance Bible, even as I review text and exams for industry associations.

Would buy an updated edition in a heartbeat!

This is an excellent reference book for anybody in the life insurance business, whether you are a novice or an old hand. Comprehensive, easy to understand, and concisely written.

Out-dated

Book received in great shape. Reasonable price. Thank you!
