Customer Reviews

The best financial textbook I have ever read. Simple, crisp and clear to understand, I recommend this for anyone who truly want to have a solid foundation about finance. In fact, I recommend this to EVERYONE. =)

Definitely matched the description and the book I wanted. It is similar than the non-global version and at its best for its price!

I was afraid this book would be over rated and under delivering ... wrong, this is a classy view of World Business at Work!

Tough material, but the book does a good job of explaining things and providing examples.

The book is in excellent condition and exactly the book need for the course I am taking.

book was a little cheaply printed but expected for a global edition

Yes! Just what I needed for my college class!
